Schilling was asleep at the start and scension started away with a threelengths lead. She held her lead to the stretch where Hildebrand came wide, carrying Israelite with him. Schilling then came to the inside and, overhauling Ascension, had no trouble in winning easily by three lengths, clipping a fifth of a second from the track record.

Invincible Wins Easily.

Kickshaw went to the post a favorite. He was played for a killing from 6 to 1 down to 5 to 2, and the killing came off all right. Kickshaw went to the front at the start, made all the running and wor easily by three lengths from South Trimble, who was second all the way, finishing four lengths in front of Akela, who made up a lot of ground.

Easy Race for Danseuse,

Though no great surprises marked to-day's battles on the white-barred gridiron, the contests in which the major elevens took part were marked by desperate play from the starting signal to the final blow of the referee's whistle. Harvard was unable to cross Dartmouth's goal line, but the New Hampshire giants were also shut out from scoring, the game ending, 0 to 0.

Princeton had a narrow squeak in winning from West Point by the score of 12 to 6, the Cadets putting up the gamest kind of a defense, many of them fighting until they dropped in their tracks, and were carried from the field on stretchers. Most of the betting in Wall street to day was on the result in the State. Prominent brokers who have been sounding the political situation advised their customers the best bet was on Herrick at 10 to 6, these being the odds at the close of the market.

The betting books of the curb operators show about \$1,250,000 bet on the election, but a great proportion of this is fake or wash betting. There was a great deal of betting done to-day by men who are long on stocks and look at politics from a purely business

These men bet on Parker at 1 to 5 figuring that there will be a slump in stocks in the event of Parker's election and that if they can cash \$5 for every \$1 wagered on his success they can offset any stock losses. On the other hand they figure that Roosevelt's election will boost stocks and that the rise will counterbalance their losses on

The odds offered that Roosevelt will carry New York are 2 to 1. M. J. Kiernan, who is said to represent Jefferson M. Levy, bet \$4,000 on Parker at these odds to-day in three bets. A determined effort is being made to hold the Roosevelt odds at 5 to 1 for the effect upon the election. There is said to be \$50,000 to bet on Roosevelt at that figure in large amounts in the safe of an established firm.

John W. Gares says that ne has bet \$160,000 on Roosevelt at 5 to 1, and wants to bet \$400,000 more. Charles H. De Witt, representing the Hoffman House crowd, is said to have placed a great deal of money on several different

great deal of money on several different propositions.

Ed McCullagh, representing Phil Daly and other gumbiers, was in Wall street to-day looking for Pariser money on the general result. He said he had \$100,000 to bet at 5 to I and could find no takers. Four years ago the odds were 4 to I on McKinley against Bryan and no Bryan money in sight. The Wall street odds against the election of District-Attorney Jerome were 1 to 3.

Reported at Headquarters That the Democratic National Committee Has All the Evidence, and That the Candidate Will Use It in His Brooklyn Speech.

GOV. ODELL GIVES NO PROOF THAT PARKER OWNS TRUST STOCK

When Asked by The Evening World if He Had Sent for the Documents He Said He Could Get in Fifteen Minutes, He Simply Stands by Former Statements.

It is rumored around Democratic National headquarters that Judge Parker's reply to President Roosevelt's letter to-night will take the shape of a direct accusation that a certain trust, to be named, contributed \$1,000,000 to the Republican campaign fund. Proof of the transaction is said to be in the possession of the Democratic National Committee.

No official confirmation of the report could be had from Mr. Belmont, Mr. Nicoll or Mr. Sheehan, but there was a feeling of joyous confidence around headquarters that could not be mistaken.

"After what the Judge will say to-night," said one of the campaign managers, "neither Governor Odell nor President Roosevelt will have a leg to stand on."

The statement that a single trust had contributed \$1,000,000 to the Republican National Committee was made on the platform a few days ago by Henry Gassaway Davis, Judge Parker's running mate,

ODELL GIVES NO PROOF.

Governor-Chairman Odeil was asked by an Evening World reporter this afternoon for the documentary proof of his assertion made last night that Judge Parker held \$25,000 worth of the stock of the United States Shipbuilding Company and was a stockholder in United States Steel. In his speech of accusation at Murray Hill Lyceum the Governor-Chairman announced that he had such proof at Newburg and could produce it an

"I stand on my statement made last night," said Governor-Chairman Odell. "I will furnish the documentary proof of my statement that Judge Parker was a stockholder in the United States Shipbuilding Company and the United States Steel Company if it is asked for."

"The Evening World asks for it and will print the proof if you

"I have nothing further to say."

"Have you sent for the documentary proof you say you have?" To this he replied that he had nothing further to say.

Governor-Chairman Odell is still in town and has no plans for going to Newburg, where the documentary proof, he says, is accessible Newburg is only a two hours' ride from New York.

Here is the text of the Governor's charge against Judge Parker:

"I know that Judge Parker had \$25,000 worth of United States Shipbuilding stock. If there is any further doubt in the minds of any citizens I will in less than ten hours—the time it will take me to go to Newburg produce the proof and establish the truth of what I state.

"And this is not the only trust that Judge Parker has assisted in promoting. I know he had stock in the United States Steel Trust. If there's any doubt of that in the mind of any man I'll produce the same documentary proof. I will do it in the same way, if desired, within fifteen minutes after I get to Newburgh."

ROOSEVELT DENOUNCES CRY OF CORTELYOUISM

With Election Day only a few hours off there is recrimination and abuse all along the line.

President Roosevelt denounces the statement that his appointment of Mr. Cortelyou to the Chairmansnip of the Republican National Committec was a move in the direction of securing trust contributions and support as a "wicked ralsehood."

"I chose Mr. Cortelyou as Chairman of the National Committee after
